TREATMENT CONSENT FORM:

I understand that Pure Energy Therapists do not diagnose illness, disease, or mental disorder. Nor do they prescribe medical treatment or pharmaceuticals. It has been made clear that energy healing is not a substitute for medical examination or diagnosis and that it is recommended that I see a MD/ND for any physical or mental ailment. With this in mind I agree that the Pure Energy Therapist cannot be held liable for any problems that might arise that I think could be attributed to the energy healing session. I have stated all of my known medical conditions to my provider, and if necessary I will keep her updated on my physical, mental, and emotional health. I acknowledge that the Pure Energy Therapist at Prakti practices for the purpose of providing holistic support using Intuitive Energy Healing Techniques, Sound Therapy, and Marma Point Therapy. In addition, the Pure Energy Therapist may recommend lifestyle, nutrition, and herbal remedies. I attest that I understand the nature of the treatment and freely elect to receive treatments. I release the providers from any and all claims of malpractice, non-disclosure, or lack of informed consent.

WHAT TO EXPECT:

A typical session lasts for one hour and begins with the client lying down on a massage table fully clothed, minus shoes and glasses if the client wears them. Relaxing music is available if the client chooses, but is not required. Every effort is made to be sure that each client feels safe and comfortable. Before your session begins, you can discuss any of your thoughts or concerns. The Pure Energy Therapist will work above your body or lightly place her hands on various parts of your body. If you do not wish to be touched please let your provider know. She will feel for places where the energy is stagnant, where the energy is deficient, and where the energy is over-abundant. She may work with the chakras, acupuncture meridian lines, marma points, or areas that she is intuitively drawn to work. You may let your provider know if there is a specific area that you would like addressed. The provider may feel heat, cold, or a tingling sensation in her hands indicating that there is some type of block or stagnation of energy in a particular area. She may feel there is too much energy in a particular area. She may also receive impressions about an area(s) of a person's life that may be in need of attention. She will usually relay her impressions to her client after the session and go over any questions or feelings (both physical and emotional) that come up. You and your provider will also check in about anything that came up for you during the session. Most people feel very relaxed as sessions allow for the release of physical, emotional and spiritual tension or pain. This allows the individual to begin making necessary changes and shifts in awareness toward a more positive life experience. Your Pure Energy Therapist finds that energy medicine has a cumulative effect, so when you treat yourself to regular sessions, better health and well-being are natural outcomes.
